SUMMARY

Software Engineering student at WGU building hands-on projects with JavaScript, TypeScript, React, and SQL, backed by 18 years of operations experience and 2 years as an enterprise IT Business Analyst. Bridges technical implementation and business outcomes through clear requirements, structured QA, and Agile delivery.

PROJECTS

Personal Portfolio Site - Next.js 16 · React 19 · TypeScript

- Building a portfolio and writing site to document projects and engineering learnings, deployed on Vercel with Cloudflare DNS.
- Styled with Tailwind CSS, shadcn/ui, next-themes, and Framer Motion.
- Structured around the App Router with composable layout, page sections, and reusable UI components for long-term maintainability.

Warhammer 40K Miniature Tracker - JavaScript · Node.js · SQLite

- Personal CRUD application to catalog a miniature collection, track painting progress, and manage unit composition for the tabletop game.
- Built a reusable SQLite data-access layer with get/all/run helpers to abstract query patterns and reduce duplication across the app.

EXPERIENCE

Information Services Business Analyst · K-VA-T Food Stores (Corporate Support Center)

May 2024 – Present

- Serve as Scrum Master for a cross-functional Agile team facilitating standups, sprint planning, refinement, reviews, retrospectives, and maintaining the backlog with Azure DevOps.
- Lead QA coordination for patch validation and regression testing; built an Azure DevOps test plan importer that significantly reduced setup time and eliminated manual recreation across cycles.
- Coordinate multiple third-party vendors across system upgrades, production support, QA testing, and deployments.
- Lead delivery of an enterprise-level MDM upgrade, coordinating vendor testing, defect triage, UAT, and training material development.

Lead Assistant Store Manager / Food Service Manager · K-VA-T Food Stores (Food City)

Oct 2021 – May 2024

- Directed daily operations and led teams exceeding 200 employees across departmental leadership; mentored staff and served as a District Trainer across multiple departments.
- Applied sales-trend analysis to drive demand-driven production planning, reducing waste and improving inventory efficiency.
- Earned Certified Food Service Trainer and Certified Store Manager Trainer credentials.

EDUCATION

B.S. Software Engineering · Western Governors University

Jan 2024 – Expected 2027

- **Relevant Coursework:** Front-End Web Development · JavaScript Programming · Python · Data Management Foundations · Advanced Data Management · Version Control · Network & Security Foundations · Systems Thinking · Applied Probability & Statistics

SKILLS

Languages: JavaScript · TypeScript · Python · SQL / T-SQL · HTML / CSS

Frameworks & Libraries: React · Next.js · Tailwind CSS · shadcn/ui · Node.js · Angular

Databases: SQLite · Microsoft SQL Server · PostgreSQL

Tools & Platforms: Git · GitHub · Azure DevOps · VS Code / VS Codium · Vercel · Proxmox · TrueNAS · UniFi · Supabase

Business Analysis: Agile / Scrum · Requirements Gathering · Backlog Management · QA Coordination · Vendor Management

AI-Assisted Development: Claude Code (code generation, debugging, documentation, planning)
